Memphis Tenn.

Dear Friend:

I have been planning to write you ever since Abe returned from his western trip, and told me of his conversation with you, about making a trip in September. I see by the papers you are having a lot of trouble with The Clowns. If the stories in the papers are true, it is pretty bad. It is very easy to understand, however, as these people never did want the baseball to get too high class, and all these sort of things help to keep it down. Maybe some good will come of it, if it will cause some public indignation.

About the trip in September, do you want The Eagles to travel with you? If so tell me what time of the month, and about what territory you were planning for. I don't expect you to give me a complete layout at this time, but I would like to get some idea, so I could make other plans to fit in. I have several men I had to give 5 month contracts to, which means I have to pay them until Oct. 1st, so I will have to try and keep busy that long.

I will appreciate hearing from you as soon as possible. Your brother answers all his mail very punctually Ha! I hope the team is doing well. Abe sends regards.

Very Truly Yours
